To Whom It May Concern

We have employed Green Building Company this summer to repair and redecorate both the front and rear elevations of 74 Lansdowne Place.

Initially I found them on Check a Trade and was impressed by their reputation so asked Michael Green to quote. He was the most professional of all the builders I had to quote in that he produced a written quotation within 2 weeks as he said he would, others I had to chase or they sent a 2 sentence email as a quote.

Michael's family team started the job on time and worked reliably and systematically through the job. Their preparation and repair work to cracks in the render was thorough, stripping off all blown render and starting from scratch. The team clean up after themselves and were courteous and polite to have around. Michael and his team were easy to communicate with of any problems that arose. All of their work was to a very high standard and I will certainly continue to use them in the future and recommend them to anyone.

Yours faithfully

Anna Barrick
