To whom it may concern

We have recently employed Green Builders to build a sidefill extension in our 100 year old terraced house. They were always punctual, always very respectful and polite and a pleasure to deal with. The work has been completed to a high standard, consistent with their quote and on time, despite the inevitable unexpected problems which arose during the project. Michael always made sure that we understood what was happening and took care to explain things to us when necessary. Michael and his team have abundant knowledge and experience: there were a couple of occasions where the architect and/or structural engineer had overlooked essential points which Michael picked up and resolved, thereby saving us much time and worry.

They always took care to inform neighbours when noisy works were going to be done. Our immediate neighbours have been so impressed with their work that they both wanted the firm to carry out work for them too.

We would have no hesitation in recommending them to anyone.
